PROFESSIONAL SUMMARY

Computer Science & Engineering (AI & ML) student with hands-on experience building full-stack applications integrated with AI/LLM APIs, backend frameworks, and databases. Skilled in Java, Python, and web technologies with a strong foundation in OOP and problem-solving. Seeking to contribute to real-world projects while growing as a developer who bridges AI with practical, user-focused applications..

TECHNICAL SKILLS

- **Programming Languages** - Java, Python(Basics)
- **Web & Frameworks** - HTML, CSS, JavaScript, Spring Boot
- **Databases** - MySQL, MongoDB
- **Soft Skills** - Design Thinking, Analytical Thinking, Team Collaboration, Effective Communication, Leadership

EDUCATION

B.E., Computer Science & Engineering (AI & ML) 2023 – 2027
V.S.B. Engineering College Karur, Tamil Nadu
CGPA: 8.48

SSLC & HSC 2021 – 2023
Government Higher Secondary School Theni, Tamil Nadu
HSC: 83% SSLC: Pass

EXPERIENCE

Virtual Intern 12/2025 – 01/2026
Infosys Springboard
Gained hands-on experience integrating frontend, backend, and database components, including data handling, backend connectivity, and application development workflows.

Web Development Intern 01/2025 – 02/2025
Kevell Guru
Enhanced responsive UI layouts and implemented clean, user-friendly interfaces across web pages and devices, improving usability and visual consistency.

PROJECTS

Learnova – AI-Powered Code Analysis & Learning Platform

- Developed an AI-driven learning platform that automates code error analysis for Python, offers interactive code Q&A, and visualizes complex code logic through step-by-step animations.
- Tech Stack: Python, FastAPI, React.js, Google Gemini API, JavaScript, HTML, CSS

InvoSense AI – Invoice Processing Agent

- Developed an AI-powered invoice processing system that automates invoice data extraction and detects duplicate and near-duplicate invoices using vector similarity search.
- Tech Stack: Java, Spring Boot, MongoDB, Google Gemini API, Vector Similarity Search, Docker, Render
