OBJECTIVE

Enthusiastic Computer Science & Engineering (AI & ML) student passionate about **Software Engineering and Full Stack Development**, with a strong foundation in Java, web technologies, databases, and OOP. Seeking opportunities to apply my technical and problem-solving skills to build innovative software solutions while continuously enhancing my expertise.

EDUCATION

B.E. Computer Science & Engineering (AI & ML) 2023 – 2027
V.S.B. Engineering College, Karur

CGPA: 8.48

SSLC & HSC 2021 – 2023
Government Higher Secondary School, Theni, Tamilnadu

SSLC Percentage : ALL PASS

HSC Percentage: 83%

TECHNICAL SKILLS

- **Programming Languages** : Java, Python(Basic)
- **Web Technologies** : HTML, CSS, JavaScript
- **Database Technologies** : MYSQL
- **Soft Skills** : Design Thinking, Analytical Thinking, Team Collaboration, Effective Communication, Leader Ship
- **Core Subject** : Data Structure & Algorithm, Machine Learning, Database And Design Management, Operating System.

INTERNSHIP EXPERIENCE

Virtual Intern-Infosys Springboard 12/2025 – 01/2026
Gained hands-on experience in integrating frontend, backend, and database components, while learning data handling, backend connectivity, and application development workflows.

Web Development Intern-Kevell Guru 01/2025 – 02/2025
Enhanced responsive UI layouts and implemented clean, user-friendly interfaces across web pages and devices, improving usability and visual consistency.

PROJECTS

Learnova (AI-Powered Code Analysis & Learning Platform) - Tech Stack: Python, FastAPI, React.js, Google Gemini API, JavaScript, HTML, CSS

Developed an AI-driven learning platform that automates code error analysis for Python and Java, offers interactive code Q&A, and visualizes complex code logic through step-by-step animations.

InvoSense AI (Invoice processing agent)-Tech Stack: Java, Spring Boot, MongoDB, Google Gemini API, Vector Similarity Search, Docker, Render

Developed an AI-powered invoice processing system that automates invoice data extraction and detects duplicate and near-duplicate invoices using vector similarity search.

CERTIFICATIONS

- Java Foundation – Infosys Springboot
- Introduction to machine Learning - NPTEL
- Hackathon Participant - InclusiveAI'25 (Topic: "the idea for special ability person;s")
